

Installation Instructions

Hyundai Staria (2021+)

STEP	INSTRUCTION
------	-------------

- 1 Loosen and remove lower control panel, remove cable and set aside. Then remove 2 x screw.

- 2 Loosen AC control unit, remove cable and set aside. Then remove 2 x screws.

3

Loosen cover behind the display unit, then remove 2 x screws.

4

Loosen display unit, remove cables, and set aside.

5

Remove screws as indicated. Then loosen indicated dash pieces, do not remove top panel.

6

Loosen central panel in passenger legroom, then remove 1 x screw. Repeat for driver's side.

- 7 Loosen plastic trimming around gearstick. Remove 2 x screws, then loosen lower component.

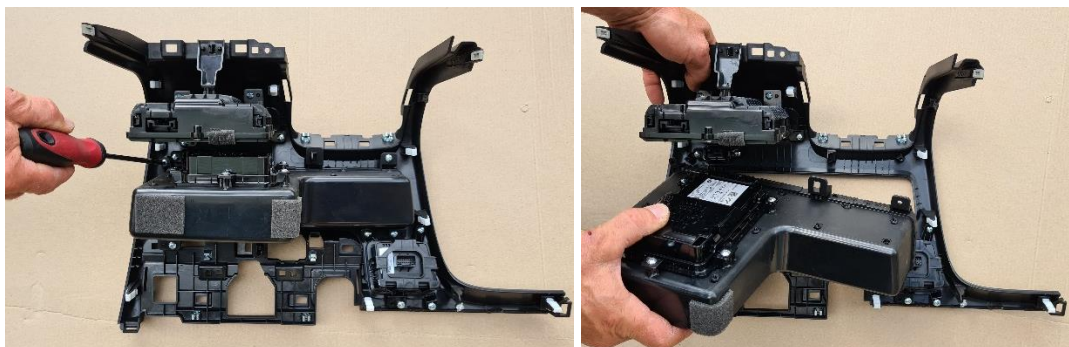

- 8 Remove 1 x screw, then loosen dash piece.

- 9 Move gearstick to neutral. Then unplug cables to remove dash component. Move the gearstick to park.

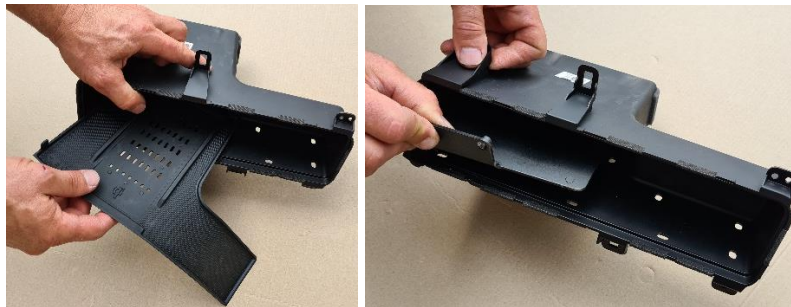

- 10 Unscrew screws from dash component to remove hollow container.

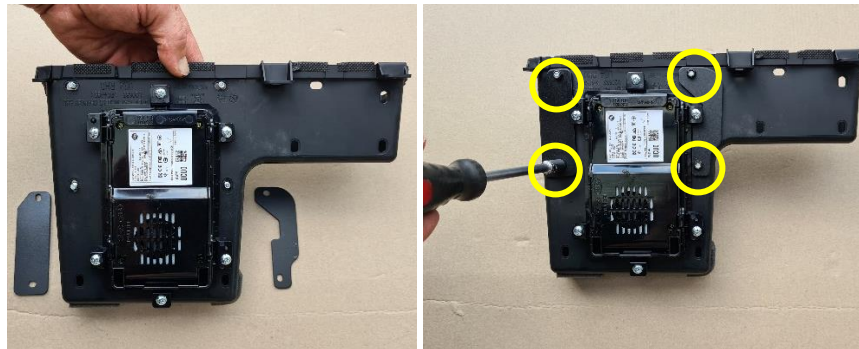

11

Remove rubber mat. Then insert bracket as shown.

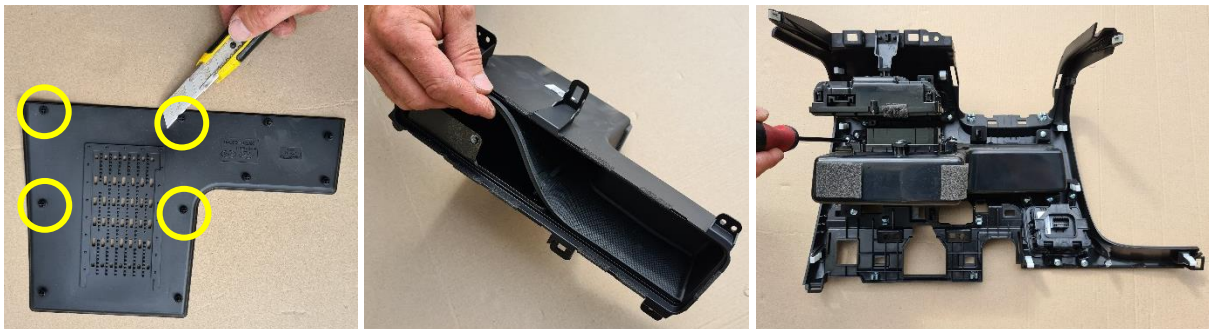

12

Install flat plates on the underside using the supplied Nuts as shown.

13

Using a sharp blade remove 4 x tabs on the underside of the rubber mat and reinstall. Secure the hollow container back to the dash component using previously removed screws.

14

Replug cable to dash component. Reinstall into dash, making sure cables are accessible.

15 Restore indicated screws to their original state, organise plugs.

16 Snap top panel, restore dash components.

16 Restore lower dash components both sides.

17

Install upper bracket. Replug and restore display unit.

18

Restore all dash pieces.

19

Install front bracket using 4x countersunk screws provided.

Enjoy your new InDash Mount!
