

Kia Sorento (2024+)

STEP	INSTRUCTION
------	-------------

1

On the passenger side, remove the side panel and 2 x internal screws.

2

Repeat for the driver side.

- 3 Remove panel from behind display unit, then remove 4 x indicated screws.

- 4 Loosen display unit, unplug rear cables, then set display unit aside.

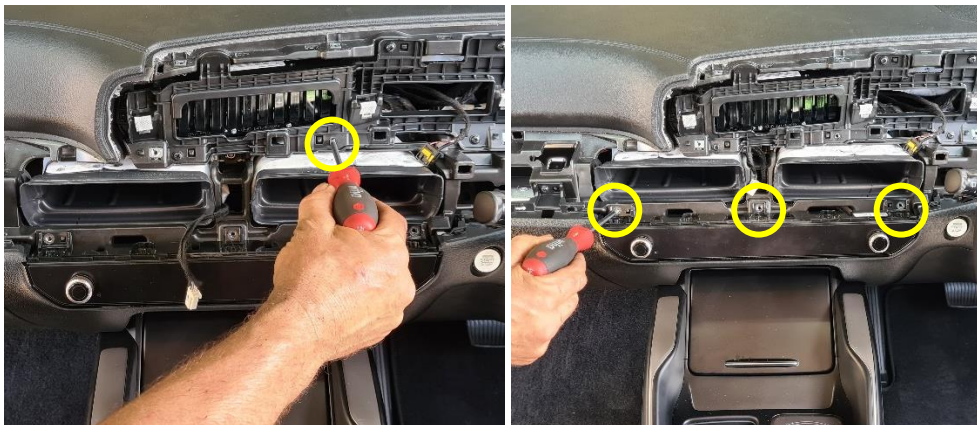

- 5 Remove 1 x screw, then loosen and set aside dash piece from behind steering wheel.

- 6 Remove 2 x screws then loosen dash piece. Unplug rear cables, then set dash piece aside.

- 7 Remove 4 x indicated screws, then remove lower dash control unit from the dash.

- 8 Using a sharp blade, carefully trim the indicated plastic tabs from the topside of the lower dash control unit.

9

Install first bracket as shown, returning 3 x screws.

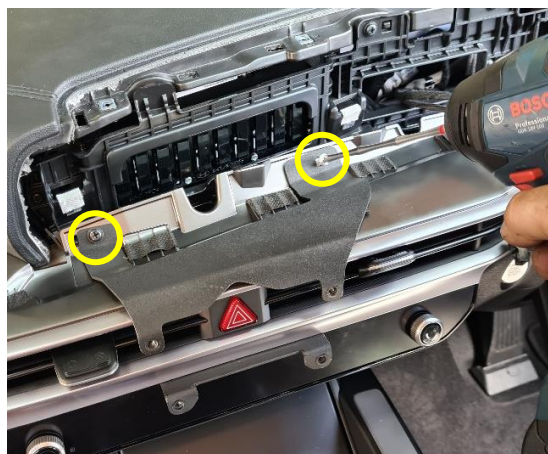

10

Return dash piece and cables.

11

Use 1 x previously removed screw to fix bracket in place as shown. Then use 1 x supplied self taper screw to drill through the plastic and secure to the mounting point behind.

12

Return all previously removed components to their original state.

13

Install front bracket using 4 x countersunk screws provided.

Enjoy your new InDash Mount!
