

Installation Instructions

Toyota Kluger 2021+ In Dash Mount

Step

Instructions

- 1 Carefully remove panel on rear of display unit and remove 4 x screws. Loosen display unit, unplug cables, and set aside.

- 2 Loosen air vents, unplug, and set aside. Remove 2 x screws, then set aside dash component.

- 3 Install first bracket on removed dash component as indicated. Drill 2 x holes and secure to plate.

- 4 Return the dash component, 2 x screws, air vent, and cable to their original state.

- 5 Place upper bracket into dash, using 2 x previously removed screws as a guide to secure 3 x self-tapper screws. The 2 x screws can then be removed.

- 5 Return all cables and dash components to their original state.

- 6 Install front bracket using 3 x countersunk screws provided.
